SWISHDM × INBOUNDONSTEROIDS

Make LinkedIn a source of new clients.

Jonathan, I'll turn your team's SEO and GEO expertise into content, outreach and sales conversations with the right buyers.

We start with your LinkedIn account.

YOUR EXPERTISE

SEO. GEO. Migrations. Digital PR.

Useful content + relevant outreach ↓

A SALES CONVERSATION

"How would this work for our brand?"

Your content gives outreach a reason.

Your posts show buyers how you think. Outreach starts the conversation. We follow up until they're ready for a call.

OUR STARTING AUDIENCE

Ecommerce founders and marketing leaders selling into the US. Around **$5–10m in revenue**, with room for a **$5,000+ retainer.**

Make your expertise visible.

I turn your calls, talks and team Slack into posts, carousels and resources for potential buyers.

Research, writing, design and publishing are included. We extend useful ideas into X articles and newsletters as your audience grows.

Why does your competitor keep appearing in AI answers?

Start with the questions your buyers ask. Compare which brands get named, the sources used, and where your expertise is missing.

BEFORE OUTREACH

Company fit → Relevant problem

SwishDM Example resource

Where your competitor appears in AI answers.

Buyer questions	The same prompts for both brands
Brand mentions	Who appears in the answer
Cited sources	What supports the recommendation

Give the right buyer a reason to reply.

We find relevant buyers through your network and industry conversations, then check their company and role.

Start with a useful finding about a direct competitor in AI answers. Share value in the first message, then build a deeper review where it makes sense.

> LinkedIn invites, DMs and available InMail credits.

Keep the interest moving towards a call.

I handle replies, qualification and follow-up. Questions that need your expertise come to you.

You get buyer context before each call. Your notes guide the follow-up afterwards.
